

1

### INITIAL SETUP

The bank creates a secure API connection to Dojo™ servers to view balance, transactions & transfer money to parents' & kids' accounts.

2

### PLATFORM INSTALLATION

Install Dojo™ SDK into the specified bank app.

3

#### PLATFORM TESTING

Roll-out bank app with Dojo™ installed to test users & obtain feedback.

6

#### STAFF TRAINING

Training the staff & providing instruction on how to introduce Dojo™ to clients.

5

## IN-BRANCH INTEGRIGATION

Integrate Dojo™ to support portal into banks & in-branch telephone support portal. 4

#### MARKETING PLAN

Coordinate with marketing team on full-roll out marketing strategy.

7

### **ROLL-OUT**

Rolling out the Dojo™ platform to the bank.

# Seamless Rollout Across all Functional Groups

The team at Dojo understands the banking world and our management, tech and activation team are 100% focused on helping your functional groups navigate the adoption of the Dojo platform.

Whether our white label or grey label present a better solution for you, our team is focused on continually developing a strong on-boarding, testing, deployment and activation process to make the roll out seamless.
